Re: License No.:21-3217701

Dear NRC Associate,

I would like to request an amendment be made to our materials license to REMOVE a location of authorized use:

Cardiology and Vascular Associates, P.C.
720 North Lapeer Rd, Suite 103
Lake Orion, MI 48362

This location was previously controlled by McLaren Health Care System and it was our intention to take over control and operate this facility. Our plan to take over control was never finalized and thus we never took control and subsequently we never stored or used any radioactive materials at this facility.

I assume that based on our non-usage of radioactive materials, that a close out survey will not be required to have this facility removed from our NRC License. Please let me know if additional information is required.

Sincerely,

Joe Mueller, RSO
