Docket No. 72-11
Rancho Seco Independent Spent Fuel Storage Installation
License No. SNM-2510

REPORT OF RANCHO SECO PHYSICAL PROTECTION PLAN CHANGE

In accordance with 10 CFR 72.44(e), we are providing the NRC a copy of Amendment 7 to the Rancho Seco Independent Spent Fuel Storage Installation (ISFSI) Physical Protection Plan (PPP). This PPP amendment generalizes language describing access controls to the independent power sources required by 10 CFR 73.46 (e)(6). This was not considered to be an editorial change, and a full evaluation of the change was performed. Based on an evaluation under the provisions in 10 CFR 72.44(e), we have determined that the changes to the PPP do not decrease the effectiveness of the plan. Therefore, we can make these changes without prior NRC approval.

The information attached to this transmittal letter is Safeguards Information. Accordingly, the attachment shall be afforded the protection under 10 CFR 73.21 and may not be placed in the Public Document Room. This transmittal letter, when separated from the attachment is not Safeguards Information and may be placed in the Public Document Room.
