Hi Mr. Irwin,

We have an interagency agreement with Health and Human Services (HHS) for our contract for Potassium iodide tablets. I have a point of contact for you to contact at HHS to inquire about tablet packaging. His name is Tim Bouchelle, E-mail Timothy.Bouchelle@psc.hhs.gov and Phone: 410-642-2244 ext. 1382 or 1-800-642-0263 ext. 1382.

Please let me know if you have any additional questions.

Thank you,

Annette Stang

Hello Trish,

As we prepare for redistribution, we wonder about the packaging of the Anbex 65 mg doses. Could you or someone from DHHS let us know? We mail the tablets and want to send them safely and effectively.

Thank you.

Bill

Hi Bill

Yes we are sending 65's rather than 130's. we have you down for 140,000 65 mg tablets

I think end of April is probably good but haven't got an exact date yet. Will let you know ASAP when we get exact delivery information

Trish

Hi Trish,

I was reading this email again as we plan our distribution process here in Vermont. I noticed you refer to 65 mg tablets. We are replacing 130 mg. Can you confirm the number and mass of the tablets we are to receive here in Vermont, please? Also, we are planning for delivery at the end of April. Any reason to think otherwise now?

Thank you.

Bill

Subject: KI Update

Happy New Year. I hope that everyone is staying warm during these chilly days of winter. Summer is only 165 days away. Think warm thoughts.

You may have seen a lot of recent news and speculation regarding KI purchases by the Department of Health and Human Services and unfolding events at Fukushima. I want to let you know that these HHS purchases are for the NRC KI program and are not linked to anything else. HHS is the purchasing office for the NRC KI orders. Using HHS's procurement office enable us to leverage the buying power of the US government.

HHS has placed orders with the vendor, Anbex, for 65 mg tablets that are made by Recip AB from Sweden. The KI tablets are made "to order" ensuring that the tablets that are shipped have the longest possible shelf life. We have been told to expect receipt at HHS in mid-April and HHS will ship to the States shortly after that. The tablets should be delivered by the end of April. If this changes, I will let you know!

Thanks again for your patience.

Trish
