

NRC FORM 313 (03-2013) 10 CFR 30, 32, 33, 34, 35, 36, 39, and 40	U.S. NUCLEAR REGULATORY COMMISSION <div style="text-align: center;"> APPLICATION FOR MATERIALS LICENSE </div>	APPROVED BY OMB: NO. 3150-0120 EXPIRES: 05/31/2015 Estimated burden per response to comply with this mandatory collection request: 4.3 hours. Submittal of the application is necessary to determine that the applicant is qualified and that adequate procedures exist to protect the public health and safety. Send comments regarding burden estimate to the Information Services Branch (T-5 F53), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by internet e-mail to Infocollects.Resource@nrc.gov, and to the Desk Officer, Office of Information and Regulatory Affairs, NEOB-10202, (3150-0120), Office of Management and Budget, Washington, DC 20503. If a means used to impose an information collection does not display a currently valid OMB control number, the NRC may not conduct or sponsor, and a person is not required to respond to, the information collection.

USNRC License 12-28232-01

3. Locations :

Licensed material shall be held and stored only at the licensee's facilities located at: 2110 Silas Deane Highway, Rocky Hill CT, 06067, 424 Chapel Street, New Haven, CT 06511 and 903 E 104th St., 1st Floor Storage Room, Kansas City, MO 64131 and may be used at temporary job sites of the licensee anywhere in the United States where the U.S. Nuclear Regulatory Commission maintains jurisdiction for regulating the use of licensed materials.

5: Radioactive Material:

A. Cesium – 137	Sealed Sources registered either with NRC under 10CFR32.210 or with an agreement state and incorporated in a compatible gauging device as specified in Item 9 of the license	No Single Source to exceed the maximum activity specified in the certificate of registration issued by the NRC or an agreement state. Total Activity not to exceed 117 millicuries.
B. Americium – 241	Sealed Sources registered either with NRC under 10CFR32.210 or with an agreement state and incorporated in a compatible gauging device as specified in Item 9 of the license	No Single Source to exceed the maximum activity specified in the certificate of registration issued by the NRC or an agreement state. Total Activity not to exceed 572 millicuries.

6. Purpose:

A and B: To be used in Troxler Electronics Labs Model 3400 series surface moisture/density gauges, portable gauging devices used for measuring physical properties of materials.

7. Responsible Individuals:

The Radiation Safety officer for this License is John K. Cook. Mr. Cook completed Troxler Nuclear Gauge Safety Training, USDOT Hazmat Training and Troxler RSO training for portable gauges in April 2012. Gauges will be stored at the following locations: 2110 Silas Deane Highway, Rocky Hill CT. 06067 and 424 Chapel Street, New Haven, CT 06511 and at 903 E. 104th St., 1st Floor Storage Room, Kansas City, MO 64131. In addition to Mr. Cook, the firm has two site RSO's in Connecticut and Missouri, Christopher Hylas and Christopher Flageolle respectively. Each of them has received Troxler RSO training as well.

8. Training for Individuals:

All Gauge operators have received Troxler Nuclear Gauge Safety Training and Hazmat certification from the DOT. RSO's have completed Troxler's Radiation Safety Officer Training.

9. Facilities and Equipment – See #10.

10. Safety Program:

A. Licensed Material will only be used by, or under the supervision and in the physical presence of individuals who have received the training described above.

B. Sealed sources shall be tested for leakage and/or contamination at intervals not to exceed the intervals specified in the certificate of registration issued by NRC under 10CFR 32.210 or by an agreement state.

C. In the absence of a certificate from a transferor indicating that a leak test has been made within the intervals specified in the certificate of registration issued by NRC under 10 CFR 32.210 or by an agreement state prior to the transfer, a sealed source or detector cell received from another person shall not be put into use until tested.

D. Sealed sources need not be tested if they are in storage and are not being used. However, when they are removed from storage for use or transferred to another person, and have not been tested within the required leak test interval, they shall be tested before use or transfer. No sealed source shall be stored for a period of more than 10 years without being tested for leakage and/or contamination.

E. The leak test shall be capable of detecting the presence of 0.005 micro curie of radioactive material on the test sample. If the test reveals the presence of 0.005 micro curie or more of removable contamination, a report shall be filed with the USNRC in accordance with 10 CFR 30.50(c) (2), and the source shall be removed immediately from service and decontaminated, repaired, or disposed of in accordance with Commission regulations.

F. Tests for leakage and/or contamination shall be performed by persons specifically licensed by the Commission or an Agreement State to perform such services. In addition, the licensee is authorized to collect leak test samples but not perform the analysis: Analysis of leak samples must be performed by persons specifically licensed by the Commission or an agreement state to perform such services.

G. Records of leak test results shall be kept in units of micro curies and shall be maintained for 3 years.

H. Sealed sources or source rods containing licensed material shall not be opened or sources removed or detached from source rods or gauges by the licensee, except as specifically authorized.

I. Except for maintaining labeling as required by 10 CFR Part 20 or 71, the licensee shall obtain authorization from the NRC before making any changes in the sealed source, device, or source-device combination that would alter the description or specifications as indicated in the respective Certificates of Registration issued by the Commission pursuant to 10 CFR 32.210 or by an agreement state.

J. The licensee shall conduct a physical inventory every 6 months, or at other intervals approved by the USNRC, to account for all sources and/or devices received and possessed under the license.

K. Each portable nuclear gauge shall have a lock or outer locked container designed to prevent unauthorized or accidental removal of the sealed source from its shielded position. The gauge or its container must be locked when in transport. A minimum of two independent physical controls that form tangible barriers to secure portable gauges from unauthorized removal whenever the portable gauge is not under the control and constant surveillance of the licensee is required.

L. Any cleaning, maintenance, or repair of the gauge(s) that requires removal of the source rod shall be performed only by the manufacturer or by other persons specifically licensed by the Commission or an agreement state to perform such services.

M. Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with the statements, representation, and procedures contained in the documents, including any enclosures listed below. The U. S. Nuclear Regulatory Commission's regulations shall govern unless the statements, representations, and procedures in the licensee's application and correspondence are more restrictive than the regulations.

11. Waste Management: See 10 A – G above.

HAZMAT Certification

as required by U.S. DOT and IATA

This certifies that

John K. Cook

has been trained and tested in accordance with the U.S. Department of Transportation and International Air Transport Association (IATA) hazardous material requirements for general awareness/familiarization, function-specific, safety, and security awareness training as related to the transportation of nuclear gauges. A description of the training course materials is available from Troxler Electronic Laboratories, Inc.

Training Date
April 25, 2012

Expiration Date
3 years from date of class

Instructor
Patrick Schroeder

Troxler Electronic Laboratories, Inc.
PO Box 12057 • 3008 Cornwallis Road • Research Triangle Park, NC 27709
Phone: (919) 549-8661 • Fax: (919) 549-0761 • www.troxlerlabs.com

Hazmat Employer Certification
