Dear Sir or Madam:

We would like to amend the device registry sheets listed above to recognize an additional sensor head model.

For CA501D101B, under "DIMENSIONS", please add the following line to the table of sensor models and sensor heads:

<u>Model No.</u>	<u>Head Designation</u>	<u>Approx. Outer Dimensions</u>
2201	4106 (PRECISIONPAK 6)	24" x 24" x 12"

For CA501D102B, under "DIMENSIONS", please add the following line to the table of sensor models and sensor heads:

<u>Gauge</u>	<u>Model No.</u>	<u>Head Designation</u>	<u>Min. Outer Dimensions</u>
	4201	4106 (PRECISIONPAK 6)	24" x 24" x 12"

For CA501D103B, under "DIMENSIONS", please add the following line to the table of sensor models and sensor heads:

<u>Gauge</u>	<u>Model No.</u>	<u>Head Designation</u>	<u>Min. Outer Dimensions</u>
	4202	4106 (PRECISIONPAK 6)	24" x 24" x 12"

For CA501D104B, under "DIMENSIONS", please add the following line to the table of sensor models and sensor heads:

<u>Gauge</u>	<u>Head Designation</u>	<u>Min. Outer Dimensions</u>
<u>Model No.</u> 4203	4106 (PRECISIONPAK 6)	24" x 24" x 12"

Honeywell will insure that each of the gauges continues to comply with our existing commitments (maximum dose rates, labeling, ANSI classification, etc.), as stated in the applicable registry sheets.
