SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE 21-32399-01

Dear Ms. Smith:

In the letter dated December 18, 2013, Dr. Katbi contacted the U.S. Nuclear Regulatory Commission and indicated that he wished to terminate NRC radioactive material license 21-32399-01. The NRC staff has reviewed the final status surveys and based on its review, has concluded that all licensable radioactive material has been removed from the facility.

Based on these conclusions no further remediation or actions with respect to NRC regulated material is required. The facility at 43252 Woodward Avenue, Suite 100, Bloomfield Hills, Michigan, is suitable for unrestricted use and NRC license number 21-32399-01 is hereby terminated.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have any questions, please call me at (630) 829-9839.

Sincerely,

A handwritten signature in cursive script, reading "William P. Reichhold".
