Subject: RE: NRC RAI dated February 14, 2014

Good Afternoon Mr. Haney-

We can grant KRISS an extension of the due date to reply to our questions. Please let us know when you will be able to provide the answers to NRC's request for additional information (RAI) dated February 14, 2014, so we can grant you an extension.

If KRISS is be able to respond to our questions by March 14, 2014, an email response to the RAI would be acceptable (see Sean Chapel's email attached, dated March 10, 2014). However, in order for NRC to accept the RAI response via email, KRISS will have to provide a complete response to all our questions and shall include all the necessary supporting documentation.

Regarding the question of marking the entire application as proprietary, KRISS is to decide what you wish to withhold from public disclosure. It could be the entire application (in this case the RAI response with supporting documentation) or individual sections of it. In order to do this, KRISS will need to submit an affidavit as required under 10 CFR 2.390(b)(1) and clearly address the five withholding criteria set forth in 10 CFR 2.390(b)(4)(i) through (v). The NRC will review the information provided and determine if it meets the withholding criteria requirements set forth in 10 CFR 2.390.

Thank you,

María del Mar Arribas-Colón, M.S.

Ma'am,

Thank you for the follow-up. I am trying to get there. I have questions out to the needed parties now and am expecting them back soon. If I can only give you partial answers, can I have some time extended. I think I can give you the right answers, but I worry that I won't have official signoff on all of them.

Respectfully,

- Phil Haney
