Please destroy any previous copies of these documents that you still have on file.

10 CFR 70.32(i) requires emergency plan revisions to be furnished to the USNRC within six months after changes are made. A nature of change listing and the electronic signature page is enclosed with this letter.

Additional copies are being sent to AREVA Richland's USNRC Project Manager (Marilyn Diaz), USNRC Region II (Manuel Crespo), and the USNRC Senior Resident Inspector at Columbia Generating Station (Jeremy Groom).
