

March 21, 2014

Mr. Sungho Yang, Quality Regulation Manager
New Reactor Office
Korea Institute of Nuclear Safety (KINS)
PO Box 114, Yuseong, Daejeon
S. Korea 305-600

Dear Mr. Yang:

Thank you for presenting at the U.S. Nuclear Regulatory Commission's 26th Annual Regulatory Information Conference (RIC), held March 11–13, 2014, at the Bethesda North Marriott Hotel and Conference Center in Rockville, Maryland.

Your remarks during the Licensee Supply Chain Challenges with Vendors and Subtier Suppliers session were informative and engaging—and they stimulated thought. You offered another perspective on the topic, which helped to foster a dynamic discussion during the question and answer portion of the session.

This year, the number of participants at the RIC reached over 3,000, with international representation from all over the world. Initial feedback received indicates that the RIC was successful in achieving its goal of providing an opportunity for participants to interact with colleagues and to gain and share valuable insights, opinions, and information on nuclear regulatory activities.

Now available at <http://video.nrc.gov/> are the audio and video recordings captured during for the opening session, the Commission plenary sessions, the regional session ("Contemporary Nuclear Power Plant Regulatory Issues") and the special plenary session ("Panel Discussion on Operating and New Reactors: Answers to Your Questions"). Additionally, all questions that were not addressed during the technical sessions as well as final presentations received while onsite are currently being compiled and will be posted on the RIC Web site at <http://www.nrc.gov/public-involve/conference-symposia/ric/index.html> in the next few weeks.

We thank you for your contributions, which help to make the RIC a success, and hope you will join us for the 27th Annual RIC on March 10–12, 2015, at the Marriott Bethesda North Hotel and Conference Center in Rockville, Maryland.

Warm regards,

Richard A. Rasmussen, Chief /**RA**/
Electrical Vendor Inspection Branch
Division of Construction Inspection
and Operational Programs
Office of New Reactors
