Dear Ralph:

Please find enclosed two diskettes with the copy of the Device Registration for Honeywell. One has the file in Word 6.0, the original document. The second diskette has the file in Winword 2.0. I tried exporting the document to WordPerfect 5.1, but Word 6.0 kept crashing. However, WordPerfect 6.0 will pull in the Winword 2.0 version and convert it. However, sometimes this results in screwed-up tabs and paragraph breaks.

Please let me know if I can be of help.

Sincerely,

Gary L Caines,  
Radiation Safety Officer
