## *The Reno Creek Project*

March 10, 2014

Mr. Chad Glenn  
Senior Project Manager  
Materials Decommissioning Branch  
Decommissioning and Uranium Recovery  
Licensing Directorate  
Division of Waste Management and  
Environmental Protection  
Office of Federal and State Materials  
and Environmental Management Programs

SUBJECT: RAI RESPONSE SCHEDULE, RENO CREEK PROJECT, Docket 40-9092

Dear Mr. Glenn:

AUC LLC (AUC) is in receipt of your letter of February 10, 2014 regarding Requests for Additional Information (RAI) on the proposed Reno Creek In Situ Leach Uranium Recovery (ISR) project to be located in the Powder River Basin near Wright, Wyoming.

AUC has reviewed the RAIs and has already communicated with you regarding the need to clarify a number of the questions and requests. AUC proposes to conduct PM to PM meetings with you for the purposes of clarification on March 13 (and March 20 if needed) by telephone conference. Upon completion of that process, AUC will initiate the development of responses to the RAIs.

AUC further proposes the following procedure, which is in accordance with Section 2.2 of the Guidance for Electronic Submissions to the NRC, May 27, 2011, Revision 6.1:

1. AUC will prepare responses to each RAI in the traditional style: RAI (including basis); AUC comments; AUC proposed response/application revision. This document will be in a .pdf format in accordance with NRC guidance.
2. NRC and AUC will resolve responses via exchanges and/or meeting.
3. AUC will prepare a fully revised application (TR and ER) in two forms:
  - a. A "redline" version showing all changes (deletions, additions, edits) in text, tables, and figures) in a .pdf format in accordance with NRC guidance.
  - b. A "clean" version reflecting the "acceptance" of all changes shown in the "redline" version, from 3.a. above. The "clean" version will be the Revised Application suitable for posting if and when accepted.
  - c. A document comparison between the final "clean" version and the original application to verify that all agreed changes were made and that no other changes appear in the Revised Application.

Fx. 303-953-7994

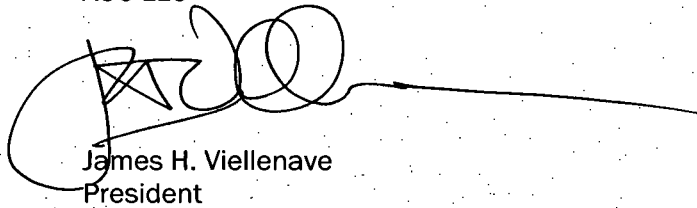

FSMEZ1

d. An index of all changes made and reflected in the "redline" version.

Should you have any questions, please do not hesitate to contact me.

Sincerely yours,

AUC LLC
