March 27, 2001

Mr. Martin Knotts
Radiation Safety Officer
Elekta Instruments, Inc.
3155 Northwoods Parkway, NW
Norcross, GA 30071

Dear Mr. Knotts:

Enclosed is a copy of the **amended** "Registry of Radioactive Sealed Sources and Devices Safety Evaluation of Device" Numbers **GA-269-D-101-S, Leksell Gamma System Model 23016, and GA-269-D-102-S, Leksell Gamma System Model 23004 or 24001** per your request for a sealed source evaluation for the Elekta Models 43047 and 43685, dated February 23, 2000. A copy of the registration certificates have been forwarded to the United States Nuclear Regulatory Commission for inclusion in the sealed source and device registry.

These certificates were amended to add the Elekta Models 43047 and 43685 to each certificate. No additional changes were made.

If you should have any questions, please call our office at (404) 362-2675.

Sincerely,

Eric T. Jameson
Environmental Radiation Specialist
Radioactive Materials Program
