Dear Mr. Kahn:

In accordance with your electronic letter, with attachments, dated August 31, 2006, Georgia Sealed Source and Device (SS&D) registry certificate GA-1077-D-101-S has been amended in its entirety. Enclosed is Amendment Number .02, which incorporates the change in shielding material and its corresponding dimensional changes, the listing of new models in a series, and the incorporation of new safety interlocks. This amendment supersedes all previous amendments of this license.

Additionally, your Georgia Radioactive Materials License GA 1382-1 has been amended to reflect the models in the CNA series (800-S, 1000-S, 1200-S, 1400-S). Enclosed is amendment .03 of that license.

A copy of the SS&D certificate has been forwarded to the U.S. Nuclear Regulatory Commission for inclusion in the national SS&D registry database.

Please read this license thoroughly upon receipt. If you should have any questions concerning the license, please contact me via telephone at 404-362-2675, or via electronic mail at ejameson@dnr.state.ga.us.

Sincerely,

Eric T. Jameson
Environmental Radiation Specialist
