The purpose of this letter is to clarify the current status of the schedule information provided in References 1 and 2 for Requests for Additional Information (RAIs) related to the safety review of the Bell Bend Nuclear Power Plant (BBNPP) Combined License Application (COLA).

In Reference 3, PPL Bell Bend, LLC (PPL) requested that the NRC withhold further review of certain Parts of the BBNPP COLA due to delays in the progress of the U.S. EPR Design Certification, and that PPL currently anticipates resumption of the review of those Parts in late 2015. At that time, PPL will provide the NRC updated schedule information for providing the responses to all outstanding safety RAIs.

PPL will work with the NRC to ensure sufficient notice is provided to allow for resource planning.
