File Cy.

Dr. Peter A. Morris, Director
Division of Reactor Licensing
United States Atomic Energy Commission
Washington, D. C. 20545

Dear Dr. Morris:

RE: DOCKET NOS. 50-361 AND 50-362
SAN ONOFRE NUCLEAR GENERATING STATION, UNITS 2 AND 3
OUR FILE NO. 1160

I would respectfully request an extension of time of 60 days in order to file the comments of the California Public Utilities Commission (C.P.U.C.) on the Environmental Report filed by Southern California Edison Co. (Edison) and San Diego Gas & Electric Co. (San Diego) in the above-mentioned matters.

The nature of the comments to be filed by the C.P.U.C. would be in the way of a decision by the C.P.U.C. on the application filed jointly by Edison and San Diego for a certificate of public convenience and necessity to construct Units 2 and 3 at their San Onofre Nuclear Generating Station. This future decision would contain findings relating to environmental factors.

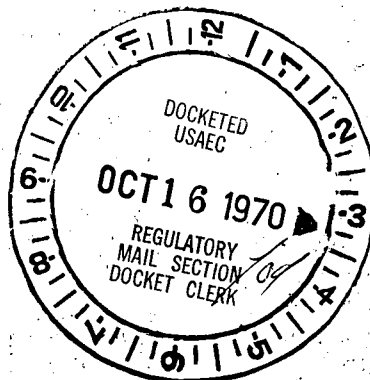

Hearings on the joint application before the C.P.U.C. commenced during the week of October 5, 1970 and further hearings are scheduled for October 13, 14, 15, 1970. It is impossible therefore for the C.P.U.C. to render a decision before October 24, 1970, the due date for comments on the Environmental Report hereinabove referred to.

It is respectfully urged that the requested 60 days extension of time be granted.

Very truly yours,

Elinore C. Morgan
