Calvert Cliffs Nuclear Power Plant, Unit 3
Schedule for Submission of COLA Revision 10

Reference: Paul Infanger (UniStar Nuclear Energy) to Document Control Desk (NRC),
"Calvert Cliffs Nuclear Power Plant, Unit 3, Request for Exemption from 10 CFR
§ 50.71(e)(3)(iii)," letter UN#13-146, dated November 19, 2013

In the above referenced letter, UniStar Nuclear Energy (UNE), acting on behalf of Calvert Cliffs Nuclear Project, LLC, and UniStar Nuclear Operating Services, LLC, co-applicants for the combined license (COL) for the Calvert Cliffs Nuclear Power Plant Unit 3 (CCNPP Unit 3), requested an exemption from the requirements of 10 CFR § 50.71(e)(3)(iii), as applicable to the CCNPP Unit 3. Specifically, UNE requested a delay in the submission of its updated Final Safety Analysis Report (FSAR).

UNE requested an exemption from the requirement to submit the scheduled 2013 update to the CCNPP Unit 3 FSAR, and committed to a new schedule for submission of the next updated CCNPP Unit 3 FSAR in calendar year 2014. By this letter, UNE revises that commitment to submit the next CCNPP Unit 3 FSAR update in calendar year 2014 within 90 days of the submittal date of the U.S. EPR FSAR, Revision 6.

The enclosure provides the revised Regulatory Commitment made in this letter.

This letter does not contain any sensitive or proprietary information.
