Edwin I. Hatch Nuclear Plant – Units 1 and 2
Joseph M. Farley Nuclear Plant – Units 1 and 2
Vogtle Electric Generating Plant – Units 1 and 2
Licensee Guarantees of Payment of Deferred Premiums (10 CFR 140.21)

Ladies and Gentlemen:

The requirements of 10 CFR 140.21 include annual submittal of evidence that each licensee maintains a guarantee of payment of deferred premium for each reactor it is licensed to operate. As of September 10, 2013, the required deferred premium amount per the Price-Anderson Amendment Act increased. Per the increase, each licensee maintains a guarantee of payment of deferred premiums in the amount of \$18.963 million for each reactor it is licensed to operate. Southern Nuclear Operating Company (SNC) maintains nuclear liability endorsements through Marsh USA for the Edwin I. Hatch Nuclear Plant, the Joseph M. Farley Nuclear Plant, and the Vogtle Electric Generation Plant under the American Nuclear Insurer's Master Policy – Nuclear Energy Liability Insurance (Secondary Financial Protection). This coverage includes a Bond of Payment of Retrospective Premiums and provides the basis for SNC compliance with the provisions of 10 CFR 140.21(a). Certified copies of the ANI endorsements were sent by Marsh USA to Mr. Michael Purdie, Financial Analyst, U.S. Nuclear Regulatory Commission (NRC), by letter dated March 12, 2014.

This letter contains no NRC commitments. Should you have any questions in connection with our response, please contact Ken McElroy at (205) 992-7369.

Respectfully submitted,

A handwritten signature in black ink that reads "C. R. Pierce".

C. R. Pierce
Regulatory Affairs Director
