ALLEN GROSS: Hello, this is Allen.

YONG LI: Hi Allen.

ALLEN GROSS: Yes.

YONG LI: This is Yong Li.

ALLEN GROSS: Yes.

YONG LI: How's everything going?

ALLEN GROSS: All right. I'm trying to get this map put together.

YONG LI: Oh, you got the faults?

ALLEN GROSS: I got it from the USGS website. It's quaternary faults that are capable of producing a greater than magnitude 6 quake.

YONG LI: But mostly in California, right?

ALLEN GROSS: Mostly in the Western U.S.

YONG LI: Um-huh.

ALLEN GROSS: West of the Mississippi.

YONG LI: Um-huh. Western what?

ALLEN GROSS: West of the Mississippi River.

YONG LI: Actually West of Colorado.

ALLEN GROSS: Yes, yes.

YONG LI: 105 degrees West, yes.

ALLEN GROSS: Yes.

YONG LI: There shouldn't be anything, I

2 at the 105 longitude. Anyway, because we have a guy
3 who's handling all the seismology, earthquake and power
4 plant question here.

5 I told him that you got a request from this
6 room. He is not aware of that. He's curious, he said
7 and maybe, I don't know, really who is sending this request?
8 Do you know who called you actually?

9 ALLEN GROSS: Ted Smith.

10 YONG LI: Ted Smith.

11 ALLEN GROSS: Okay.

12 YONG LI: Okay. So I'll ask him check that
13 person. Maybe they can set some coordination there.

14 ALLEN GROSS: Yes, if you don't want me to
15 do anything with this map, that's fine. I don't want
16 to send information that conflicts with somebody else's
17 information.

18 YONG LI: Okay, that's what I thought too
19 because they have a kind of focusing point to deal with
20 photography or whatever.

21 ALLEN GROSS: Yes, I didn't realize that
22 he wasn't --

23 YONG LI: Okay.

24 ALLEN GROSS: -- making an official request.

25 YONG LI: What is the position here? What

YONG LI: Oh, you were here?

ALLEN GROSS: Yes, I just came down with
Ted Smith. He had come up here for awhile and I --

YONG LI: I was looking for him but nobody
knows him there at the Liaison Office.

ALLEN GROSS: Apparently he sits right
beside, what's her name, Elizabeth or Beth.

YONG LI: Becky, Beth?

ALLEN GROSS: I don't know, I don't know
the people down there anymore.

YONG LI: Anyway --

ALLEN GROSS: I saw her name on a email.

18 4:00, 5 o'clock. I was asking around, who's Ted Smith,
19 nobody knows.

20 ALLEN GROSS: No one knows.

21 YONG LI: Anyway.

22 ALLEN GROSS: That's scary.

AUTOMATED MESSAGE: Thank you for calling ESRI. If you know the extension of the person you wish to reach, you may enter it now.

DAVID: Hi, this is ESRI, this is David speaking.

YONG LI: Hi, Dave.

DAVID: Yes.

YONG LI: This is Yong.

DAVID: Great.

YONG LI: I'm back to my work station.

DAVID: Okay. I just have one question for you, would you happen to know your customer number?

YONG LI: I do, actually, I don't.

DAVID: I could look it up, it's no --

YONG LI: Yes, I don't know how to pull this out. I have the software so does that indicate the number somewhere? Oh, it's licensing setting, okay, just sec.

DAVID: We could try to figure it out but let's see here.

YONG LI: Yes.

DAVID: You're with the U.S. Regulatory Commission?

YONGLI: Yes, Nuclear Regulator Commission.

3 YONG LI: Uh-huh.

4 DAVID: -- you call. I'm just going to go,
5 I'll do --

6 YONG LI: I thought before you clicked the
7 something under the help pull-down menu they'll show
8 the licensing number? But maybe in the setting, okay,
9 just a second. Do you really want that one or it's okay?

10 DAVID: Let me see here, I think I can get
11 you to see.

12 YONG LI: Just second, I think, less active,
13 desktop, desktop, help. Maybe it's not there anymore.
14 Our old version there's a licensing file hiding somewhere.
15 Yes, I can't pull it up right away.

16 DAVID: It's okay.

17 YONG LI: Okay, okay. Yes, it's defiantly
18 a good licensing for (inaudible), licensing yes.

ALICE: Hello?

STEPHANIE DEVLIN: Alice, it's Stephanie
Devlin.

ALICE: Oh, hi, what's up?

STEPHANIE DEVLIN: Hi. I just have a
question on one of the maps and I just, okay, so I don't
know what happened in your shift, I couldn't get a hold
of (indiscernible, possibly "Nebu") when I called this
cubicle because I forgot to ask him. The map --

ALICE: Oh, you're on right now.

STEPHANIE DEVLIN: Yes.

ALICE: The 3 o'clock shift.

STEPHANIE DEVLIN: It's a simple question
so it should be, I mean you may know it but if you don't
it's not the end of the world. It's just my general
interest of what's on this map.

So zoom down, originally we were looking
a lot more at the 50 kilometer and now we're looking,
I mean this is much bigger, but you see the 75 kilometer?

ALICE: Yes.

STEPHANIE DEVLIN: On the Southwest of the
plant, beyond the 75 mile kilometer or 75 mile circle,
there's a red and black star.

NEAL R. GROSS

1 ALICE: Right.

2 STEPHANIE DEVLIN: What is that?

3 ALICE: Those are the same thing and I put
4 them in in two different ways.

5 STEPHANIE DEVLIN: Okay, that's fine.

6 ALICE: It's a sample that came from the
7 Navy and it's an iodine air sample. That's all I know
8 about it.

9 STEPHANIE DEVLIN: Okay.

10 ALICE: I don't even know what the value
11 is.

12 STEPHANIE DEVLIN: Okay.

13 ALICE: And I don't know the date on it.
14 All I know is it was, the guy who I was working with
15 was Greg and of course he's not on your shift.

16 STEPHANIE DEVLIN: Okay.

17 ALICE: But he was one of the dose assessors
18 and it was something that came in over the telephone,
19 so to speak, or something like that. It was just one
20 data point.

21 STEPHANIE DEVLIN: Okay.

22 ALICE: And it was a bouillon, it was a like
23 March 13th date. But those two asterisks are essential
24 the same thing. I just somehow or other, I was fooling
25 around with figuring out how I was going to put them

NEAL R. GROSS

1 in and I fell two different ways and I just did it that
2 way.

3 STEPHANIE DEVLIN: That's fine.

4 ALICE: Because there was --

5 STEPHANIE DEVLIN: So is this similar to
6 when I took over from you, there was a Navy ship in the
7 harbor and you were doing distances to it?

8 ALICE: Yes.

9 STEPHANIE DEVLIN: Okay. All right. But
10 you don't have a value, that's okay, I just forgot to
11 ask --

12 ALICE: I don't have a value.

13 STEPHANIE DEVLIN: I was like, what the hell
14 are these stars, I should have asked what these are.

15 ALICE: Yes.

16 STEPHANIE DEVLIN: Okay.

17 ALICE: Well part of the problem is, these
18 pieces of data come in, they don't come in as a shapefile.

19 And basically we put them in as graphs and eventually
20 as they, I mean like for instances the asterisks that
21 are out to the East are the Fukushima plants that have
22 numbers to them, those are iodine. I don't know which
23 isotope, it's one of the isotopes because they had two
24 isotopes.

25 STEPHANIE DEVLIN: Yes.

1 ALICE: And the guy told me (inaudible) and
2 I forgot, I think it might have been 131, I don't know.
3 But anyway, those are the becquerel values.

4 STEPHANIE DEVLIN: Okay.

5 ALICE: And if I knew more, if I were faster
6 with DIF (phonetic) I would have gathered those all up
7 and put them into an element or a --

8 STEPHANIE DEVLIN: Some layer, yes.

9 ALICE: A layer, okay, it's a layer. You
10 know, I use to know ArcView when it was ArcView before
11 it became ArcMap or ArcView --

12 STEPHANIE DEVLIN: Because you knew the
13 code.

14 ALICE: No, no.

15 STEPHANIE DEVLIN: Oh, okay.

16 ALICE: But I knew an earlier version where
17 they talked about things in a different way. And they
18 had the project was setup, basically it was a project
19 that had a whole bunch of pointers to all these different
20 things that you could pull in.

21 But I knew it was different then that now
22 and I just didn't put that into a shapefile or a layer
23 or whatever I could have put it in. I didn't gather
24 it together to make it into a single element.

25 STEPHANIE DEVLIN: Okay.

1 ALICE: So, and I think we should be doing
2 that because that way you can click it on and off.

3 STEPHANIE DEVLIN: Yes.

4 ALICE: Because that map can get to be really
5 messy and what happened at one point on mine, on my watch,
6 I put in like an overlay in Google and I had to distort
7 it so that it would fit into select, if you reference
8 it correctly.

9 STEPHANIE DEVLIN: Yes.

10 ALICE: And it was a word file that was a
11 table. It was like a matrix table. And I jury-rigged
12 that thing and I squished it around. I couldn't get
13 it into ArcInfo or ArcView.

14 In the end I had to bring it into google
15 because it had more flexibility there. But after awhile
16 there's so much clutter and it was a mess.

17 STEPHANIE DEVLIN: Yes.

18 ALICE: And --

19 STEPHANIE DEVLIN: Well and everybody works
20 differently too, yes.

21 ALICE: Right.

22 STEPHANIE DEVLIN: Yes.

23 ALICE: I know it. Yes, well I think some
24 of this stuff doesn't really have to be kept. It's not
25 like throw a paper down the road or a report.

2 conditions.

3 ALICE: This is what happens --

4 STEPHANIE DEVLIN: Five hours --

5 ALICE: Yes, like this is what happens.
6 It's the same thing with the plumes too.

7 STEPHANIE DEVLIN: Yes.

8 ALICE: I mean they want to know like now.
9 And then after now they don't want to know about that
10 anymore. Once they got that they want to go onto the
11 next now. And it's, I don't think --

12 STEPHANIE DEVLIN: It's okay.

13 ALICE: -- it's so important to repay it.
14 But I have been doing is snagging, I've just been, you
15 know, as I udate things I take another snag and I leave
16 the others down there in like little film stripes at
17 the bottom.

18 STEPHANIE DEVLIN: Right, right.

19 ALICE: Of course when I came in yesterday
20 all that stuff was different. Ken C. had some sort of
21 window, Windows Microsoft viewer or something. And I
22 don't know how the hell he got that going and why he
23 --

24 STEPHANIE DEVLIN: Yes. I mean, worked all

2 ALICE: Yes. Okay, well okay.

3 STEPHANIE DEVLIN: Well thank you. I was
4 wondering what that asterisk chart, with the red and
5 black one because I was just like what the, I mean it
6 doesn't have a label and I was just not sure.

7 ALICE: Well it did originally and then that
8 got lost too.

9 STEPHANIE DEVLIN: Okay.

10 ALICE: Just because, I don't know why.
11 But there was, inside the property, if you click on
12 properties I had put something in there originally but
13 then I think I ended up messing it up in re-importing
14 it or something. I don't know.

15 STEPHANIE DEVLIN: Okay. Yes, great.

16 ALICE: It's an air sample of iodine.

17 STEPHANIE DEVLIN: Okay.

18 ALICE: Okay.

19 STEPHANIE DEVLIN: Fantastic. All right,

ALLEN GROSS: Hello, this is Allen.

YONG LI: Hi, Allen.

ALLEN GROSS: Yes.

YONG LI: Hey, this is Li, Yong.

ALLEN GROSS: Yes, how you doing?

YONG LI: Sorry, I just looked at your email today. I was not actually at the Operations Center here. You were actually here at the, who pulled you here? I'm sorry.

ALLEN GROSS: I got your call. That stuff in the email I did on my own up here at my desk after I saw what was on your computer when I was down there.

YONG LI: What is that, the call?

ALLEN GROSS: You called me Friday.

YONG LI: Oh, yes, yes, I did, I'm sorry. There's a question about, what's the question? Anyways it's over, that's obsolete, yes.

ALLEN GROSS: When I was down there with you before --

YONG LI: Uh-huh, yes.

ALLEN GROSS: -- you were trying to get a buffer around that --

YONG LI: You're right.

1 ALLEN GROSS: -- it was the reactor.

2 YONG LI: Uh-huh.

3 ALLEN GROSS: But you were using the City
4 of Fukushima and the reactor is not in the City of Fukushima.

5 YONG LI: Yes, you're right.

6 ALLEN GROSS: It's in the prefecture of
7 Fukushima.

8 YONG LI: Yes, you're absolutely right.
9 That thought was wrong, yes.

10 ALLEN GROSS: So I went and got the --

11 YONG LI: No, no, no. I just want you to
12 show me how to make it. I actually want to, I mean that's
13 wrong. It's just the way to do it, not the real thing,
14 yes.

15 ALLEN GROSS: All right.

16 YONG LI: Yes. But, so you say you generate
17 the shapefile for the power plant?

18 ALLEN GROSS: Yes, I generated a point
19 shapefile that shows the dot of those coordinates.

20 YONG LI: Oh, so is that on the screen, I
21 don't see it? Somebody took it away or something.

22 ALLEN GROSS: No, I didn't do it down there,
23 I did it up here at my computer.

24 YONG LI: Oh.

25 ALLEN GROSS: It's easier to work up here

1 thsn down there.

2 YONG LI: I see.

3 ALLEN GROSS: And then I made a shapefile
4 that was the buffers at 10 kilometer intervals.

5 YONG LI: I see.

6 ALLEN GROSS: And then I did the same thing
7 at 5 mile intervals. So I have one in miles and one
8 in kilometers.

9 YONG LI: I see, I see. Okay, I got you
10 now.

11 ALLEN GROSS: And I can bring that down there
12 and put it on that computer if you need to use these.

13 YONG LI: Yes, it think it's okay. Somebody
14 added 75 miles radius.

15 ALLEN GROSS: Hmm.

16 YONG LI: So like now we have 25, 50 and
17 75. And I don't see any need to do, I don't know if
18 they want to add like 10, 20, whatever.

19 ALLEN GROSS: All right.

20 YONG LI: It's going to be maybe a little
21 bit to many.

22 ALLEN GROSS: Uh-huh.

23 YONG LI: Yes, but thanks. Thanks for your
24 effort there.

25 ALLEN GROSS: All right.

4 ALLEN GROSS: No.

5 YONG LI: No?

6 ALLEN GROSS: I didn't do anything down there,
7 no. Other then come down and help you that one day and
8 --

9 YONG LI: I saw your name on the list.

10 ALLEN GROSS: They want me to come down
11 tomorrow.

12 YONG LI: Oh.

13 ALLEN GROSS: So I'll be down there tomorrow.

14 And they called me to come in in the weekend but I couldn't
15 because (b)(6)
16 so.

17 YONG LI: Oh, okay. Who called you, the
18 operator center?

19 ALLEN GROSS: I think he's name is David
20 Campbell, if I remember correctly.

21 YONG LI: Oh, yes. He called me on Sunday,
22 Friday night too. Yes.

23 ALLEN GROSS: He called me Saturday morning
24 I believe.

25 YONG LI: I see. Okay, he called me, he

3 with person.

4 ALLEN GROSS: Yes, I don't even know how
5 he got my name.

6 YONG LI: Who knows, I don't know. Yes.

7 ALLEN GROSS: Maybe someone up here in my
8 division gave him my name.

9 YONG LI: Maybe Lou, I don't know.

10 ALLEN GROSS: Yes, maybe Lou.

11 YONG LI: Yes.

12 ALLEN GROSS: That's true.

13 YONG LI: I defiantly didn't give your name
14 to anybody.

15 ALLEN GROSS: Well I think it was Ted.

16 YONG LI: Oh, you mean Ted Smith?

17 ALLEN GROSS: Yes, the guy --

18 YONG LI: It could be.

19 ALLEN GROSS: -- I introduced you to.

20 YONG LI: Yes, because he sits not far from
21 him. (b)(5) because he
22 couldn't find anybody, he went around to everybody and
23 said, hey, (inaudible) anybody?

24 But the problem is here, you know, he don't
25 do much here. Like the whole day was idling.

2 phone that I'd be willing to come down there and help
3 whoever was their GS operator if they got stuck doing
4 something.

5 YONG LI: Yes.

6 ALLEN GROSS: But I don't want to sit down
7 there and not do anything.

8 YONGLI: Unfortunately that's the situation.

9 I think, I was like I hope I can leave my cell phone
10 here, you know. Anything happen even if I'm home during
11 the weekend, I can rush here in like 10, 15 minutes.

12 ALLEN GROSS: Oh, I'm an hour and a half
13 away.

14 YONG LI: I know, you are far away. I mean,
15 yes.

16 ALLEN GROSS: And I tried to explain that
17 to him on the phone.

18 YONG LI: Yes. But each day, sometime you
19 process something. Like today I just updated the weather.

20 But I think two days ago or whatever, I mean
21 Saturday night I was here from 3:00 to 11:00, I didn't
22 do any updates. I just sit around. Somebody wanted me
23 to measure something, that's all.

24 ALLEN GROSS: Yes. I don't want to waste

9 actually take off.

10 YONG LI: You said you going to be here

4 ALLEN GROSS: But if you need something give

6 YONG LI: Yes, I appreciate it.

7 ALLEN GROSS: Sometimes it's easier for me
8 to look up stuff like if you need data or whatever up
9 here then down here.

10 YONG LI: Yes, I know. You like your station
11 better.

12 ALLEN GROSS: Or if I need to make shapefiles
13 of something or whatever.

14 YONG LI: Okay, thank you so much.

15 ALLEN GROSS: Because I don't have to work
16 with George (inaudible) Stewie (phonetic) there. I can

19 YONG LI: Yes, okay. Thank you.

BRUCE MUSICO: Yes, Bob Nelson please?

LINDA: One moment, may I ask who's calling?

BRUCE MUSICO: This is Bruce Musico,
Protective Measures Team.

BOB NELSON: Bob Nelson, how can I help you?

BRUCE MUSICO: Yes, Bob, this is Bruce Musico,
I'm at the OPs Center Protective Measures Team. We're
on a conference call, I think with NEI and other parties,
and apparently a website was launched today at 11 o'clock
and they said that they gave a user ID and password to
each agency. We need that user ID and password so we
can take a look at it and I was told that you had it
or might have it.

BOB NELSON: I got it at 11:01 a.m. and I
hadn't opened it yet.

BRUCE MUSICO: Okay. Are you a HOO?

BOB NELSON: No.

BRUCE MUSICO: Are you in the OP Center?

BOB NELSON: No.

BRUCE MUSICO: Okay.

BOB NELSON: I can read it to you or I can

4 just need the user ID and password.

22 On the phone they just, on our line they
23 just said that it has not been populated yet because
24 apparently agencies have to populate the plant data.
25 But apparently the site is up. That's all I need, thank
