Subject: 1998 Radioactive Effluent Release Report - Erratta

References: Letter from T. J. Tulon (ComEd) to Document Control Desk (U.S. NRC) dated April 29, 1999, transmitting 1998 Radioactive Effluent Release Report

The Reference letter transmitted the 1998 Radioactive Effluent Release Report for Braidwood Station in accordance with 10CFR50.36a and Technical Specification 5.6.3, "Radioactive Effluent Release Report." Since the document was submitted, an incorrect equation was identified in a computer program used to generate spreadsheets included in the report. As a result, erroneous information was documented in spreadsheets associated with the Supplemental Release Information for Gaseous Effluents (Waste Gas Decay Tanks) and Liquid Effluents. The information has been corrected and the revised spreadsheets are included in the attachment to this letter.

If you have any questions regarding this information, please contact Mr. T. W. Simpkin, Regulatory Assurance Manager at (815) 458-2801, extension 2980.

Respectfully,

for Timothy J. Tulon
Site Vice President
