Secretary
U.S. Nuclear Regulatory Commission
ATTN: Rulemakings and Adjudications Staff
Washington, DC 20555-0001

Subject: Comments Concerning Proposed Rule 10 CFR Parts 40, 70, 72, 74, and 150,
"Amendments to Material Control and Accounting Regulations," (78FR67225, dated
November 8, 2013) (Docket ID NRC-2009-0096)

This letter is being submitted in response to the U.S. Nuclear Regulatory Commission (NRC) request for comments published in the *Federal Register* on November 8, 2013, concerning the subject proposed rule.

The NRC is proposing to amend its regulations for Material Control and Accounting (MC&A) of Special Nuclear Material (SNM). The goal of this rulemaking is to revise and consolidate the MC&A requirements in order to update, clarify, and strengthen them. The proposed amendments add new requirements that would apply to NRC licensees who are authorized to possess SNM in a quantity greater than 350 grams.

Exelon Generation Company, LLC (Exelon) appreciates the opportunity to comment on the subject proposed rule. Exelon supports the comments submitted by the Nuclear Energy Institute (NEI) on behalf of the industry in its letter dated March 10, 2014.

Respectfully,

David P. Helker
Manager, Licensing and Regulatory Affairs
Exelon Generation Company, LLC
