SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE

Dear Mr. Carlson:

In letter dated February 11, 2014, you contacted the U.S. Nuclear Regulatory Commission and requested that NRC radioactive material license 21-32401-01 issued to Pramod Ravel, M.D., P.C. be terminated. This license has been in an inactive status for two years and in a standby mode since September 2013. It is our understanding that all radioactive calibration sources were removed from the facility in 2013. Based upon our review of the status of this license we have concluded that all licensable radioactive material has been removed from the facility located at 24661 Coolidge, Oak Park, Michigan and that this facility may be released for unrestricted use.

NRC license number 21-32401-01 is hereby terminated.

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have any questions, please contact me at (630) 829-9842

Sincerely,

A handwritten signature in black ink, appearing to read "Joe L. Simonone".
