Tom,

Thanks again for sending the final draft license. In general, Powertech finds the license conditions to be those we have reviewed and discussed with NRC staff and have no comments on the content of the license conditions. During our review, however, we found a few minor typographical errors that we think should be corrected. These are itemized below:

1. Page 3, L.C. 9.4 E), second line: termination does not need a capital T
2. Page 5, L.C. 9.8, 2<sup>nd</sup> para, last line: add (if on BLM managed land) after Bureau of Land Management
3. Page 7, L.C. 10.6, Restoration Standards, penultimate line: change "hat" to "that"
4. Page 8, L.C. 10.10 A), 4<sup>th</sup> bullet: add period
5. Page 10, L.C. 11.4, penultimate line: line is missing, should read "...provides the higher limit. The licensee shall submit any revisions to its plan for establishing..."
6. Page 12, L.C. 12.1, last line: correct format

So, with these corrections and the date and ML # for the PA the license appears ready for issuance. Thanks for all your assistance in these matters.
