Kimyata and Paul,

I am looking to meet with you to discuss Part 37 and application to large equipment.

Please see the below results of the industry survey conducted earlier this year. With 54 of 65 reactor sites responding, there have been 84 Steam Generators, 10 Reactor Vessel Heads, 10 Turbine Rotors, and 3 Steam Dryers.

Please let me know when we can get together to move forward on the issue.
