REMARKS: IMC 1245 Appendix C-12, "Safety Culture Assessor Qualification Journal," has been revised to change Human Factors branch information and to add in new documents related to the Safety Culture Common Language. Also we have incorporated the following feedback forms: 1245C12-1889 and 1245C12-1991.

IP 87137, "10 CFR Part 37 Materials Security Programs," is an initial issuance that has been created to verify that licensees in possession of aggregated category 1 and 2 quantities of radioactive materials (sealed and unsealed) are effectively implementing the requirements of 10 CFR Part 37.

IP 95003.02, "Guidance for Conducting an Independent NRC Safety Culture Assessment," has been revised to align safety culture terminology with the safety culture common language in NUREG-2165, IMC 0310, and the NRC safety culture policy.
