Subject: Response to US NRC Request for List of Planned Topical Report Submittals for FY2014, FY2015, and FY2016

By Reference 1, the NRC requested that GE-Hitachi Nuclear Energy Americas LLC (GEH) and Global Nuclear Fuel (GNF) provide a list of planned topical report submittals for FY2014, FY2015, and FY2016. This letter provides the combined response for GEH and GNF. Planned submittals that have slipped into years beyond 2016 are also included.

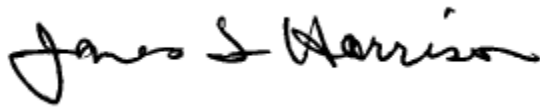

Please note that Enclosure 1 contains proprietary information of the type that GEH maintains in confidence and withholds from public disclosure. The information has been handled and classified as proprietary to GEH as indicated in its affidavit. The affidavit contained in Enclosure 2 identifies that the information contained in Enclosure 1 has been handled and classified as proprietary to GEH. GEH hereby requests that the information in Enclosure 1 be withheld from public disclosure in accordance with the provisions of 10 CFR 2.390 and 9.17.

A non-proprietary version of this enclosure has not been provided in accordance with NRC Information Notice 2009-07, which states: "In instances in which a nonproprietary version would be of no value to the public because of the extent of the proprietary information, the agency does not expect a nonproprietary version to be submitted."

There are no plans to submit fee exemption requests for the topical reports listed in Enclosure 1. While it is possible, in the extended future, that new plants may reference some of the topical reports listed in Enclosure 1, the near term likelihood is remote and the application has been listed as only to "Operating" plants.

If you have any questions, please contact Jerry Head at (910) 819-5692 or me.

Sincerely,

James F. Harrison
Vice President, Fuel Licensing
Regulatory Affairs
GE-Hitachi Nuclear Energy Americas LLC
