030 - 03509

**Importance:** High

Hi Ms. Panko,

Can you send me a better copy of your ABR certification **today**? It seems to be cut in the corners where the words AU Eligible should be, and the words United States.

Thanks,

Lizette

Dear Ms. Roldán-Otero,

Here is the revised form you requested. You should now have everything required for the 35.100 and 35.200 modality as well. Please let me know if there is anything else you need.

Sincerely, Jessica Panko

Dear Dr. Panko,

With the information provided I would be able to add you for oral administration of sodium iodide I-131 for 35.300 only. Therefore, I am ready to issue a partial amendment since you would not be added for the 35.100 and 35.200 modality. Is this the avenue you want to pursue? Otherwise, you have until March 3, 2014 to submit the information requested in #1 in my original email below, where I requested Dr. Burton to provide a completed NRC Form 313A(AUD) because the "First Section" of "Part II" of the form was not filled out by the preceptor.

Let me know how you would like for me to proceed.

Thanks,
