Proprietary Notice

This letter forwards proprietary information in accordance with 10CFR2.390. Upon the removal of Enclosure 1, the balance of this letter may be considered non-proprietary.

MFN 14-015

March 28, 2014

Docket number: 05200010

U.S. Nuclear Regulatory Commission
Document Control Desk
Washington, DC 20555-0001

Subject: Transmittal of Reference Documents for NEDE-31758P-A and NEDO-31758-A

For the purposes of completing the reference records associated with the ESBWR DCD, GEH is submitting NEDE-31758P-A, GE Marathon Control Rod Assembly, which is proprietary and is the "approved" version containing the NRC SER, and a non-proprietary summary of the topical report which is labeled NEDO-31758-A. The proprietary report is a 1991 document that, under the processes for submitting documents at that time, did not mark the proprietary content in the fashion of today's topical reports and consistent with more recent NRC guidance for submitting information. As such, the proprietary version is deemed proprietary in its entirety and it should be withheld under 10 CFR 2.390. The non-proprietary version may be disclosed to the public.

Please note that Enclosure 1 contains proprietary information of the type that GEH maintains in confidence and withholds from public disclosure. The affidavit contained within Enclosure 3 identifies that the information contained in Enclosure 1 has been handled and classified as proprietary to GEH. GEH hereby requests that the information in Enclosure 1 be withheld from public disclosure in accordance with the provisions of 10 CFR 2.390 and 9.17. Enclosure 2 is the non-proprietary version of Enclosure 1.

Sincerely,

Jerald G. Head
