SUBJECT: FERMI POWER PLANT, UNIT 2 – NOTICE OF REGULATORY CONFERENCE
ON APRIL 14, 2014

Dear Mr. Plona:

This letter confirms our plans, as discussed between members of our staffs, to hold a regulatory conference to discuss a finding preliminarily determined to be Greater-than-Green. The details regarding the issue was conveyed to you in our letter dated March 18, 2014, and its accompanying inspection report. The meeting will begin at 9:00 a.m. Central Time on April 14, 2014, at the Region III NRC offices located at Suite 210, 2443 Warrenville Road, Lisle, IL 60532. This meeting is closed to the public because it will involve the discussion of security-related information.

The regulatory conference is being held to obtain information to assist the NRC in determining the security significance of the finding and apparent violation detailed in the above letter and inspection report. The conference will provide an opportunity for you to provide your perspective on the facts and assumptions used by the NRC to arrive at the finding, your assessment of the significance of the finding, your detailed corrective actions, including any root cause evaluation, and any other information that you believe the NRC should take into consideration in making an enforcement decision.

The NRC would appreciate receiving any supporting documents by no later than April 9, 2014, in order to make the conference more effective and efficient.

Following the conference, you will be advised by separate correspondence of the results of our deliberations on this matter.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records System (PARS) component of NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

However, the NRC is waiving the affidavit requirements for any supporting documents you submit, in accordance with 10 CFR 2.390(b)(1)(ii). This practice will ensure that your submittal will not be made available electronically for public inspection in the NRC Public Document Room or from the NRC's document system, ADAMS. If Safeguards Information is necessary to provide an acceptable response, please provide the level of protection described in 10 CFR 73.21. Otherwise, mark your entire response "Security-Related Information-Withhold Under 10 CFR 2.390" and follow the instructions for withholding in 10 CFR 2.390(b)(1).

Sincerely,

/RA/
