memo 4

Docket No. 50-362

NOTE TO: Karl Knief, Chief, Light Water Reactors Branch No. 2, DPM
FROM: H. Rood, Project Manager, Light Water Reactors Branch No. 2, DPM
SUBJECT: TELEPHONE CONVERSATION WITH MR. GIL DAVIS OF THE OCEANSIDE
BLADE TRIBUNE

On November 23, 1977, at the request of Jim Hanchett of Region V, I called Mr. Gil Davis, a reporter for the Oceanside (California) Blade Tribune. Mr. Davis had called the NRC Region V Office to obtain information about the recently observed soil cavity near the foundation of the San Onofre 3 containment structures, caused by the dewatering system used to lower the groundwater level during construction.

I told Mr. Davis what I knew about the cavity, and told him that we would know a lot more about the situation after a meeting on November 29, 1977, with the applicant to discuss this issue.
