

Peer Review Cafeteria Funding Approval Form

Table 1
Readiness Commitment for Peer Review of NRC Level 1 Internal Events and
Internal Flooding of the Vogtle Units 1 and 2 At-Power

Associated Project Authorization	PA-RMSC-1027, PWROG PRA Peer Reviews for All Modes/All Events
Organization	US Nuclear Regulatory Commission
Plant and Unit being Peer Reviewed	Vogtle Units 1 and 2
Type of Peer Review	Focused At-power, internal events and internal flooding Level 1 PRA Model Peer Review.
Week of Peer Review	July 21, 2014
Description of Peer Review Scope	Focused-Scope Internal Events and Internal Flooding for Vogtle Units 1 and 2. The NRC Level 1 internal events and internal flood PRA model was based on the Vogtle PRA models developed by Southern Nuclear Company (SNC). The focus of the peer review should be on the changes made in converting the SNC PRA model to the NRC PRA model. This review should include reviewing the results for their reasonableness; in addition, assessing the basis for the changes and whether they are consistent with the ASME/ANS PRA standard.
Due date of Pre-Review Material	June 20, 2014
Estimated Completion date of Peer Review Report	On-site review initiated 7/21/14 On-site review completed 7/25/14 Draft Report TBD Final Report TBD (Final report 6 weeks after last NRC comment.)

Peer Review Cafeteria Funding Approval Form

By signing below, I acknowledge the following:

- The PRA model will be ready for the peer review on the specified date above (per the requirements outlined in OG-09-195) and will provide the necessary pre-review material by the specified date above.
- NRC will be in a position to provide additional peer reviewers to supplement the peer review team assembled by the PWROG RMSC. We will provide their names and capabilities at least 6 weeks prior to the peer review.
