Docket No. 03000638
Control No. 583228

License No. 08-02075-03

Jerry Conrad
Associate Vice President
The Catholic University of America
Facilities Operations
Marist Annex Building, Cardinal Station
Washington, DC 20064

SUBJECT: THE CATHOLIC UNIVERSITY OF AMERICA, LICENSE AMENDMENT,
CONTROL NO. 583228

Dear Mr. Conrad:

This refers to your license amendment request letter dated February 5, 2014. Enclosed with this letter is the amended license. Note that some of the license conditions are numbered and arranged differently than the previous amendment; however, only Condition No. 24 has been updated with the information you requested regarding the Radiation Safety Manual changes.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits, see our toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's expectations for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

J. Conrad
