Mr. Lloyd Bolling
U.S. Nuclear Regulatory Commission
Document Control Desk
P1-37
Washington, DC 20555

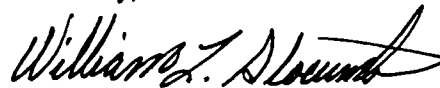

Dear Mr. Bolling:

Enclosed is the device evaluation for a new model of the Leksell Gamma System Model 23004 Type B (Gamma Knife) which will be distributed by ELEKTA INSTRUMENTS, INC. located at 8 Executive Park West, Suite 809, Atlanta, Georgia, 30329. The device registry number is GA. 269-D-102-S.

It should be noted on pages 11 thru 14 of the registry document under the topic LIMITATIONS AND/OR OTHER CONSIDERATIONS OF USE, that our agency feels the **requirements and recommendations** as applicable to the licensee (i.e. user) **should be** included in a license for the use of this teletherapy unit. Based on our review of this application, we feel these requirements will enhance the safe use of this device.

Please contact me at (404) 362-2675 if you should have any questions.

Sincerely,

William L. Slocumb
Environmental Radiation Specialist, Prin.
Environmental Radiation Program
