Water Temperature Table of the Central Atlantic Coast

IMPORTANT NOTICES:

- The table below shows the near real-time and average water temperatures in degrees Fahrenheit (°F).
- "NA" means that a recent temperature for that station is **Not Available**.
- Clicking on the hyperlinked "Recent Temperatures" will display station information for the location.
- Non-linked temperatures in the monthly columns are average water temperatures. ([Complete List of Average Temperatures](#))
- Use the near real-time water temperature data with discretion, because they may contain errors.

Water Temperature Table of the Central Atlantic Coast ([Google Maps-based Web page](#))
