

**UNITED STATES
NUCLEAR REGULATORY COMMISSION**
REGION III
2443 WARRENVILLE RD. SUITE 210
LISLE, IL 60532-4352

April 8, 2014

Mr. Michael J. Pacilio
Senior Vice President, Exelon Generation Co., LLC
President and Chief Nuclear Officer, Exelon Nuclear
4300 Winfield Road
Warrenville, IL 60555

**SUBJECT: CLINTON POWER STATION – NOTIFICATION OF NRC INSPECTION
AND REQUEST FOR INFORMATION**

Dear Mr. Pacilio:

On July 14, 2014, the U. S. Nuclear Regulatory Commission (NRC) will perform an in-depth review of a selected issue in accordance with the annual follow-up sample portion of the baseline Inspection Procedure 71152 "Problem Identification and Resolution." This on-site inspection is scheduled to be performed July 14 – 18, 2014.

Experience has shown that this inspection is resource intensive both for the NRC inspector and your staff. In order to minimize the impact to your on-site resources, and to ensure a productive inspection for both sides, we have enclosed a request for documents needed for this inspection upon arrival by the inspector at the site. It is important that all of these documents are up-to-date, and complete, in order to minimize the number of additional documents requested during the preparation and/or the on-site portions of the inspection.

We have discussed the schedule for inspection activities with your staff and understand that our regulatory contact for this inspection will be Mr. Jim Peterson, of your organization. If there are any questions about this inspection or the material requested, please contact the lead inspector Mr. Melvin Holmberg at 630-829-9748 or via e-mail at mel.holmberg@nrc.gov.

This letter does not contain new or amended information collection requirements subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.). Existing information collection requirements were approved by the Office of Management and Budget, control number 3150-0011. The NRC may not conduct or sponsor, and a person is not required to respond to, a request for information or an information collection requirement unless the requesting document displays a currently valid Office of Management and Budget control number.

M. Pacilio

INSERVICE INSPECTION DOCUMENT REQUEST

Inspection Dates: July 14 – 18, 2014

Inspection Procedures: Inspection Procedure 71152, "Problem Identification and Resolution"

Lead Inspector: Melvin Holmberg, DRS
630-829-9748

On-site information needed on the first day of the inspection (e.g., following the entrance meeting).

1. Provide hard copies (if practicable) of the following documents:
 - a. AR 01630641 "Power Increase Restrictions Resolved" with associated corrective actions planned or completed;
 - b. Fabrication drawings of Steam Dryer (SD) (E-size);
 - c. Inspection history for SD including nondestructive examination (NDE) reports (and pictures) for all flaw indication which have been identified;
 - d. Cause evaluations performed for flaw indications identified in the SD;
 - e. Construction and Design Standards applicable to the SD;
 - f. Site program and basis documents applicable to inservice examination and maintenance of the SD (e.g. BWRVIP-139 and implementing site procedures);
 - g. Engineering Change applicable to any SD repairs or acceptance of NDE indications in the SD;
 - h. Engineering Change and/or calculations applicable to SD flaw growth analysis and evaluations;
 - i. Engineering Change and associated calculations evaluating/accepting the SD for licensed full power operations (e.g. Extended Power Uprate); and
 - j. Operating Experience (OE) Applicable to the SD. Specifically provide the vendor and industry issued OE (e.g. GE SILs) with applicable ARs and CAs completed in response to this OE.

If you have questions regarding the information requested, please contact the lead inspector.

Enclosure
