Phoenix, Arizona 85040

Subject: SS&D Amendments

Dear Mr. Kuhl:

As you know, Honeywell has been issued two Radioactive Materials Licenses, AZ-510 and AZ-7-513. License AZ-7-513 is a Distribution License that permits Honeywell to distribute Generally Licensed and Specifically Licensed nuclear devices. These devices are registered on SS&Ds issued by the State of California. Honeywell is requesting that these SS&D registration certificates be re-issued by the State of Arizona. In addition, the Distributor/Manufacturer listed on all four SS&D registrations needs to be amended as follows.

Distributor/Manufacturer
Honeywell International
2500 West Union Hills
Phoenix, AZ 85027
602-313-3330

Currently, the Distributor/Manufacturer is listed as Honeywell-Measurex Corporation. All other information on the SS&D registrations is correct.

Honeywell is also requesting that licenses AZ-7-510 and AZ-7-513 be amended to reflect the above requested changes in the SS&D registrations.

I appreciate your help with this matter. If you have any questions, please let me know. My telephone number is 770-689-0186 and my e-mail is gary.caines@honeywell.com.

Sincerely,

Gary L Caines,
Radiological Operations Program Manager
