Dear Mr. DeLaBarre:

Enclosed is an application (XCOM1283), dated April 1, 2014, received by the U.S. Nuclear Regulatory Commission (NRC), from Materion Brush Inc. for the export of beryllium reflector assemblies. The assemblies are components included in 10 CFR Part 110, Appendix A, items (9), for use at the Belgian Nuclear Research Centre in Belgium.

I understand that the Executive Branch has accepted the generic assurances provided for similar exports of components to Belgium. The NRC intends to issue this license after the 30 day review period on the basis of these generic assurances.

Sincerely,

A handwritten signature in blue ink, which appears to read "Brooke G. Smith", is written over a horizontal line.
