SUBJECT: RADIAC RESEARCH CORPORATION, LICENSE TERMINATION AND
VOIDANCE OF RENEWAL APPLICATION, CONTROL NOS. 580283 AND
583544

Dear Mr. Green:

Please find enclosed Amendment No. 8 terminating License No. 31-17528-01, as requested by your NRC Form 314 dated March 12, 2014. This termination (mail control number 583544) is being issued in accordance with the requirements of the applicable NRC License Termination Rule (10 CFR 30.36, 10 CFR 40.42, and 10 CFR 70.38).

This also concerns the subject application for a renewal (mail control number 580283) to your material license. Because you informed us that you no longer need the NRC specific license, we have voided your application for renewal. This action is taken without prejudice to the resubmission of your request.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits**, see our **toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

A. Green
