

31 March 2014

U.S. Nuclear Regulatory Commission
P.O. Box 979051
St. Louis, MO 63197

Powertronic Systems, Inc. (PSI) no longer exists as a viable business entity. Indeed, the company ceased business in August 2013. The company has no assets at this time as the facility now belongs to the city of New Orleans for back taxes.

It is requested that the licenses held by PSI be terminated as the company no longer has need of them nor does it anticipate it will need them in the future. PSI has no radioactive material in its possession as verified by the Louisiana Department of Environmental Quality (DEQ).

The small entity dorm is returned herewith although I believe the invoice should be voided in view of the status of the company.

Sincerely,

Gene B. Stafford,
President
