

memorandum

Idaho Operations Office

Date: March 31, 2014

Subject: Notification of Facility Director Change for the Nuclear Regulatory Commission Regulated Fort St Vrain, Three Mile Island and Idaho Spent Fuel Facility Independent Spent Fuel Storage Installations (EM-FMDP-14-018)

To: Richard B. Provencher
Manager

This memorandum is to inform you of a change to the Nuclear Regulatory Commission (NRC) Project Management organization for the operation and management of the Fort St. Vrain, Three Mile Island Unit 2 and Idaho Spent Fuel Facility NRC licenses. The change noted below for the NRC project management organization is effective April 1, 2014.

- Paul Contreras is replacing Carey Warren, as the Alternate Facility Director for the NRC Licensed Facilities. The change was initiated to ensure adequate communications are maintained for the day-to-day operations for the NRC program.

In my position as the Assistant Manager for Facility and Material Disposition and as Department of Energy, Idaho Operations Office (DOE-ID) NRC Licensing Manager (alternate), I have reviewed the qualifications of Mr. Contreras and found him acceptable to perform as the Facility Director for the NRC Licensed Facilities. Mr. Contreras has completed the qualification standard for this position.

Please contact me should you have any questions in this regard.

Kenneth R Whitham, Assistant Manager
Facility and Material Disposition

cc: NRC Document Control
William C. Allen, NRC Project Manager
Lee Brookhart, NRC Region IV
James Floerke, CWI
Greg Hall, CWI
