Subject: NRC License #06-32815-01  
Amendment request based on NRC Inspection Report  
#03038382/2014001

Ms. Modes

As referenced in our letter dated March 5, 2014 an amendment to our license is requested by adding the statements below to the Nuclear PET Radioactive Material Guidelines (Section d. ix.) and Ionizing Radiation Protection Program (Section 6.4.2):

Whenever a pin source appears damaged or cannot be properly inserted into a transport container or it becomes exposed/unshielded and/or stuck:

- Stop what you are doing and shield the source to the best of your ability. Immediately contact customer RSO.
- Immediately reported to the GEHC Radiation Safety Officer (RSO), Tracy Gale. (Report suspected damage to sealed radioactive sources, regardless of whether leakage or contamination has occurred.)

If you have any questions or concerns, please do not hesitate to contact me at 860-896-1608.

Sincerely

A handwritten signature in cursive script that reads 'Tracy L. Gale'.
