SUBJECT: MEETING SUMMARY – PUBLIC MEETING WATTS BAR NUCLEAR  
UNIT 2

Dear Mr. Skaggs:

This refers to the meeting conducted at our request at the Comfort Inn in Athens, TN on April 9, 2014 at 5:30 p.m. The meeting's purpose was to discuss the status of the Watts Bar Nuclear (WBN) Unit 2 Construction Project, including major milestones and potential challenges that may impact the project schedule.

On April 9, 2014, the NRC held a Category 1 meeting in which TVA provided a presentation about the current progress and scheduling plans for the WBN Unit 2 Construction Project. The NRC staff presented information on the current status of the NRC's licensing and construction inspection programs for WBN Unit 2. Additional topics related to the WBN Unit 2 Construction Project were discussed between the NRC and TVA. Following these presentations and discussions, members of the public had an opportunity to provide comments and ask questions. The agenda (Enclosure 1), the list of attendees (Enclosure 2), the TVA presentation material used for discussions (Enclosure 3), and the NRC presentation material used for discussions (Enclosure 4) are attached to this letter.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room (PDR) or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS).

ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room). Should you have any questions concerning this meeting, please contact Chris Even at 404-997-4661.

Sincerely,
