

AUC LLC

The Reno Creek Project

April 11, 2014

Mr. Chad Glenn
Senior Project Manager
Materials Decommissioning Branch
Decommissioning and Uranium Recovery
Licensing Directorate
Division of Waste Management and
Environmental Protection
Office of Federal and State Materials
and Environmental Management Programs

SUBJECT: RAI RESPONSE SCHEDULE, RENO CREEK PROJECT, Docket 40-9092

Dear Mr. Glenn:

AUC LLC (AUC) wishes to thank NRC staff for its effort to clarify its RAIs regarding the Reno Creek Project. The company is now in a position to communicate its intended schedule to respond to those RAIs.

AUC proposes to provide its responses to the RAIs on or about June 1, 2014. In accordance with NRC's Guidelines for submitting electronic applications, the company will send a CD or DVD to NRC's document control group, as we did our original application submission. Please confirm that this is the correct approach.

We will also email a pdf version of the responses to you and to Jill Caverly at the same time so that you have the responses as early as possible.

Prior to submitting the RAI responses, AUC may elect to request a public meeting (phone or in person) to discuss responses to certain RAIs.

At this time, AUC proposes to work through the RAI responses with NRC using the RAI/Response format that is traditionally used by applicants and NRC staff. When RAI responses are finalized following interaction between AUC and NRC staff, AUC will then prepare redline/track changes and clean versions of the TR in accordance with NRC's needs expressed at the time.

Should you have any questions, please do not hesitate to contact me.

Sincerely yours,

J Viellenave
