Subject: Removal of a Facility

Discussion: The licensee's renewal application did not include a location of use/storage that is currently authorized on the license. I called the licensee to discuss the status of this facility. The RSO stated that they had included the facility in the license because of a long term project that was close to the facility. The project has been completed and they did not want to keep the facility as authorized storage/use location. I requested him to send a letter requesting removal of the facility and confirmation that the facility was free of any radioactive contamination.

He stated that he will send the requested letter via e-mail to me.
