In the Matter of
Strata Energy, Inc. (Ross In Situ Recovery Uranium Project)
Docket No. 40-9091-MLA; ASLBP No. 12-915-01-MLA-BD01

Dear Administrative Judges and Parties:

On April 23, 2014, the NRC Staff issued Errata to its Final Supplemental Environmental Impact Statement (FSEIS) for Strata Energy, Inc.'s (Strata's) proposed Ross Project. The Errata corrects information in Section 4.5.1.3 of the FSEIS concerning ground water restoration concentrations historically approved by the NRC for three *in-situ* uranium recovery and processing facilities. The Errata also clarifies information provided in Table 1.2 of the FSEIS regarding the role of the U.S. Environmental Protection Agency for the Underground Injection Control Program. The Errata to the FSEIS can be found in the NRC's Agencywide Documents Access Management System (ADAMS) at Accession Number ML14113A151.

Respectfully submitted,

/Signed (electronically) by/

Richard S. Harper
Counsel for the NRC Staff
