Re: Exelon Generation Company (Ogle County)
Renewal of Nuclear Regulatory Commission Operating Licenses for Exelon Byron Generating
Station Units 1 and 2 (NPF-37 and NPF-66)
Log # C-0364-12 [NPF-37 and NPF-66]

Gentlemen:

This Agency received a request on July 5, 2012 from Exelon Generating Company requesting necessary comments concerning the renewal of the Nuclear Regulatory Commission operating licenses for the Byron Generating Stations Units 1 and 2 in Ogle County. We offer the following comments.

This Agency hereby issues certification under Section 401 of the Clean Water Act (PL 95-217), subject to the applicant's compliance with the following conditions:

1. The applicant shall be responsible for obtaining NPDES permits required for wastewater or stormwater discharges to waters of the State from the proposed activity.
2. This certification does not cover future activities that require a federal authorization under Section 404 of the Clean Water Act.

This certification becomes effective when the Nuclear Regulatory Commission includes the above conditions # 1 through # 2 as conditions of the requested license issued under the Atomic Energy Act of 1954.

This certification does not grant immunity from any enforcement action found necessary by this Agency to meet its responsibilities in prevention, abatement, and control of water pollution.

Sincerely,

A handwritten signature in black ink, appearing to read "Alan Keller".

Alan Keller, P.E.
Manager, Permit Section
Division of Water Pollution Control
