B. J. Youngblood, Chief, Cost-Benefit Analysis Branch
W. E. Kreger, Chief, Radiological Assessment Branch
R. L. Ballard, Chief, Environmental Specialist Branch
J. T. Collins, Chief, Effluent Treatment Systems Branch
L. G. Hulman, Chief, Hydrology-Meteorology Branch

FROM: O. D. T. Lynch, Jr., Project Manager
Environmental Projects Branch 2

SUBJECT: TENDERED APPLICATION FOR ACCEPTANCE REVIEW, SAN ONOFRE
NUCLEAR GENERATING STATION, UNIT NOS. 2 AND 3, OL STAGE

Southern California Edison Company submitted the OL application for San Onofre Nuclear Generating Station, Unit Nos. 2 and 3, on December 1, 1976, for acceptance review by the NRC staff.

You are requested to review that portion of the Environmental Report, distributed separately, which is within your area of interest. The review should be based on the Regulatory Guide 4.2, Preparation of Environmental Reports for Nuclear Power Plants (Revision 2, July 1976).

Please provide the following information:

- a. Determine whether the Environmental Report contains sufficient information for the staff to prepare a draft environmental statement.
- b. The reviewers opinion as to the seriousness of the identified deficiencies.
- c. The reviewers estimate of how long it may take a cooperative applicant to obtain the missing information.
- d. If the review can start and proceed if the missing information is supplied before or during the first environmental site visit.

Any deficiencies in the Report should be communicated to Oliver D. T. Lynch, Jr., the Environmental Project Manager assigned to this plant, as early as possible. A telephone response, followed up by a short memorandum, is satisfactory.

DEC 7 1976

In order to maintain the acceptance review schedule, the results of your review are needed on or before December 30, 1976. This date reflects consideration of availability of personnel during the holiday season.

If you anticipate any difficulties in maintaining this schedule, please let Oliver Lynch, EPM, know as soon as possible.
