Docket 50-306
Renewed License No. DPR-60

Prairie Island Nuclear Generating Plant (PINGP) Readiness for 95001 Inspection

References: (1) Letter from the Nuclear Regulatory Commission to Mr. Jim Lynch, Site Vice President, Prairie Island Nuclear Generating Plant, dated February 25, 2013, "Assessment Follow-Up Letter for Prairie Island Nuclear Generating Plant, Unit 2" (ADAMS Accession No. ML13056A511)

(2) Letter from NSPM to NRC, dated November 25, 2013, "Prairie Island Nuclear Generating Plant (PINGP) Readiness for 95001 Inspection" (ADAMS Accession No. ML13329A495)

(3) Letter from NSPM to NRC, dated January 31, 2014, "Prairie Island Nuclear Generating Plant (PINGP) Readiness for 95001 Inspection" (ADAMS Accession No. ML14031A390)

In December 2012, the Unit 2 Mitigating System Performance Indicator (MSPI) for Emergency Alternating Current (AC) power systems at PINGP changed from green to white.

The NRC requested that Northern States Power Company, a Minnesota corporation, doing business as Xcel Energy (hereafter "NSPM"), provide notification when PINGP is prepared to undergo the supplemental 95001 inspection. NSPM initially requested the inspection on November 25, 2013. On January 31, 2014, NSPM requested that the NRC postpone the inspection due to questions regarding corrective action effectiveness. This letter is to inform the NRC that PINGP is ready for the 95001 Supplemental Inspection.

If there are any questions or if any additional information is needed, please contact Ms. Ingrid Nordby, P.E., at 651-267-1755.

Summary of Commitments

This letter contains no new commitments and no revisions to existing commitments

A handwritten signature in cursive script, appearing to read "Kevin Davison".

Kevin Davison
Site Vice President, Prairie Island Nuclear Generating Plant
Northern States Power Company - Minnesota

cc: Regional Administrator, Region III, USNRC
 Project Manager, Prairie Island Nuclear Generating Plant, USNRC
 Resident Inspector, Prairie Island Nuclear Generating Plant, USNRC
