Subject: Financial Assurance Audit Finding

Discussion: I discussed with Mr. Razminafar that he did not include Na-22 in his Certification of Financial Assurance and the value causes him to exceed the prescribed value and require a decommissioning funding plan. He could reduce the amount of Na-22 on his license and then be within the prescribed value. Mr. Razminafar stated that he wished to lower his Na-22 values as he was not using the material and had some stored.

Action Required: Mr. Razminafar will submit an amendment request to lower his Na-22, a new Certification of Financial Assurance with the new values on the license including Na-22, and surveys of Na-22 areas that show he does not have contamination of the areas which would require decontamination.
