Attention: Mr. Joe Golla (NRC)

Subject: NRC Request for List of Planned Topical Report Submittals for FY2014 through FY2016

Attachment: BWROG Planned Topical Report Submittals for FY2014 through FY 2016

As requested in the NRC letter from A.J. Mendiola to the BWROG Chairman dated February 11, 2014, the BWROG is providing the attached list of planned submittals for FY2014 through FY2016. The table annotates those that will be submitted for NRC staff review and those that will be submitted for information only. The estimated number of licensed facilities planning to use the approved TR is included along with a designation of those that will contain proprietary information. Based on your request, we have indicated those, which in our opinion, may be applicable to New Reactors.

The attached information is provided for your planning purposes. This summary does not prohibit the BWROG from submitting other reports as necessary.

If you have questions or desire further discussion, feel free to contact me or Ken McCall, BWROG Program Manager, at 910-819-3210.

Sincerely,

Lesla P. Hill
