## SUMMARY

In your request, you have indicated that your RSO has changed positions and you will need to name a new RSO. Please note that you will not be able to change and name your RSO internally; NRC must do that for you via the amendment process. We will need additional information to complete our review of the proposed RSO.

1. The course outline for the training course completed by your proposed RSO do not specifically indicate hands on training was included. Please provide documentation of the hands on training for the proposed RSO. Each proposed RSO must be qualified in accordance with the guidance in NUREG 1556, Vol. 4 Section 8.7, Item 7: Individual(s) Responsible for Radiation Safety Program and Their Training and Experience. Please also provide contact information for Mr. Dutczak.

2. In letter dated January 23, 2014, you have requested to remove several gauge models from your license. For the gauges that have been disposed of, please provide the most current leak test results.

## ACTION REQUIRED (IF ANY)

Please submit your response by April 18, 2014 and reference it to my attention as "additional information to control number 582959" to facilitate proper handling in our office. Your response must be currently dated and signed by a senior management representative. If you have any questions or require clarification of any of the information stated above, please do not hesitate to contact me at 630-829-9607

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.
